

# A Desktop Guide To SSI Eligibility Requirements

Supplemental Security Income (SSI) is a federal program that makes monthly payments to people who have limited income and resources if they are 65 or older or if they are blind or have another disability. Being eligible for SSI means you receive a monthly benefit and, depending on the state where you live, the following benefits and services:

- Medicaid
- Medicare premiums are paid (all states)
- food stamps
- other social services

The following chart describes the basic eligibility requirements for SSI. The back of this chart provides additional information about benefits provided by the states. If you know someone who may be eligible, please contact a Social Security office right away.

(This rule **does not** apply to noncitizens who become blind or disabled after legal admission for permanent residence or to noncitizens who are not lawful permanent residents.)

If the sponsor signed the new legally enforceable affidavit of support (INS Form I-864), the sponsor's income and resources are considered until the noncitizen acquires 40 work credits or becomes a citizen.
